

## Optica 2007: Festival Internacional de Vídeo Arte de Gijón. ASTURIAS. ESPAÑA

Optica is a non-profit initiative for artistic promotion organized by the cultural collective Interferencias. All activities are free of charge. The event will take place in Gijón (Asturias, Spain) from November 16th to the 18th. For more information you can consult the attached document or the website of the Festival.

Some artists who take part of the Festival are planning to visit the city during those days by themselves. It would be great to create an annual meeting point to share experiences and enjoying the world of the video-art. We're trying it.

If you decide to visit us we can provide you all the information you need about the accommodation. We can find the cheapest and comfortable places.

We keep in touch.

Thank you for your attention. Best regards.
